

Efficient Downtime Tracking

The first step to reduce costs and improve productivity.

OUR SERVICE

On-line database that allows you to track downtime, understand it, and take action to reduce it.

- Access your data from any computer with an Internet connection and a web browser.
- Use it as part of your daily operations or for improvement projects.
- There is no need to call your IT department.
- Receive software upgrades automatically and instantly.
- Visit www.downtimedb.com to register and access a full version of the database with all the functional features.
- **FREE** for the first 5 machines.

BENEFITS

- Reduce unplanned downtime through better tracking and analysis.
- Reduce inventories through quick changeover time and elimination of unplanned downtime.
- Use your time more productively with a single place to store downtime data.
- Improve and simplify paperwork with a single and standardized source for downtime and production reports.
- Track the performance of your manufacturing operations from anywhere.
- Graph machine performance to highlight the impact of operation improvements.
- Use actual data to transition from a reactive to a productive maintenance.
